Discount for
Junior
Doctors

BECOME A SKILLED OPERATOR IN FOCUSSED ECHOCARDIOGRAPHY.

Our accredited 2-day focussed cardiac ultrasound workshop is designed specifically for junior doctors through to medical specialists, including but not limited to emergency physicians, intensivists, anaesthetics, general medicine, rural GPs and cardiology trainees who want to perform point of care cardiac ultrasound.

The aim of the course is to equip clinicians with all the necessary skills to become proficient in performing a focussed cardiac ultrasound exam, and aid in accurate diagnosis and subsequent timely patient care. Our experienced echocardiography educators simplify this learning process throughout, applying our proven step-by-step approach and comprehensive hands-on component to each workshop.

Give yourself a head start with an additional 5 hours of private echo training on the Friday before your workshop. Email for more details and availability: info@cardiacskillsaustralia.com.au
